

## 1 Claims

2

3 Shopping cart or transport container

4

5 1. A shopping cart or transport container,  
6 characterized in that the surface of the shopping cart  
7 (1, 2) or transport container is composed completely or  
8 partially of hydrophobic or superhydrophobic material  
9 and/or completely or partially of ion-releasing  
10 material.

11

12 2. The shopping cart or transport container as  
13 claimed in claim 1, characterized in that the  
14 hydrophobic or superhydrophobic and/or ion-releasing  
15 surface additionally comprises a nanostructure.

16

17 3. The shopping cart or transport container as  
18 claimed in claim 1 or 2, characterized in that the  
19 hydrophobic or superhydrophobic and/or ion-releasing  
20 surface is formed during the production process of the  
21 shopping cart (2) or transport container.

22

23 4. The shopping cart or transport container as  
24 claimed in claim 1 or 2, characterized in that the  
25 hydrophobic or superhydrophobic and/or ion-releasing  
26 surface is formed by subsequent treatment of an  
27 existing shopping cart (1) or transport container.
